A Network of Complete Control

GO FURTHER WITH A DUAL-ACTION PRODUCT

Zoëcon's trusted line of Gentrol® products reaches a new level of power with Gentrol® Complete Aerosol. Combining an insect growth regulator with an insecticide, Gentrol® Complete Aerosol breaks the life cycles of German cockroaches, drain flies, fruit flies and other listed pests while providing a quick knockdown and residual control. Approved for use in sensitive areas such as kitchens and other food handling establishments, this one-step product offers all the advantages of a tank mix in a convenient aerosol.

Gentrol[®] Complete Aerosol

TREATMENT OPTIONS

- General surface spray
- Spot treatments
- Crack-and-crevice spray

ACTIVE INGREDIENTS

- (S)-Hydroprene 0.36%
- Lambda-Cyhalothrin 0.05%

ABOUT THE ACTIVE INGREDIENTS

Gentrol[®] Complete Aerosol features (S)-hydroprene, a juvenile hormone mimic that controls insects by interfering with normal hormone levels to prevent growth and/or maturation. Combined with Lambda-Cyhalothrin, it provides superior control of German cockroaches, drain and fruit flies, stored product pests, and other listed pests in buildings and listed commercial establishments.

FEATURES

- 360-degree valve
- Broad-spectrum control
- Contact insecticide with extended residual control

BENEFITS

- Approved for use in sensitive areas
- Formulated with an insecticide and IGR to provide easy, one-step control
- Active ingredient (S)-hydroprene breaks the life cycles of listed pests and prevents rebound infestations
- Low odor

AVAILABLE SIZES

- 18 oz. can
- 12 cans per case
- EPA Reg. #89459-84

APPLICATION RATES

- For complete application instructions, refer to the Gentrol[®] Complete Aerosol specimen label
